## JOB DESCRIPTION

MRM is a rapidly-growing medical risk education and consulting company that is at the forefront of improving healthcare by educating healthcare providers about the risk exposures that impact patient safety and malpractice liability. From large healthcare systems to private group practices, we work directly with healthcare leaders and providers from nearly every specialty and care setting to enhance their ability to deliver quality patient care.

The Product Development department is responsible for the successful creation of all educational content for clients. Our educational content is delivered both live and online to clients across the country and in a variety of modalities.

We are currently seeking a dynamic, experienced Content Writer who will be responsible for assisting in the development and production of MRM's educational products. A focus for the Content Writer will be ~~the creation of the online modules,~~ namely, **drafting the script** and ~~creating the visual materials.~~ The Content Writer's responsibilities will also include **data analysis, reporting, research, writing, and special projects.** The Content Writer must be able to work independently and in collaboration with the Product Development team. The content writer will also work in **collaboration with other departments** in the company to ensure that the products meet the educational needs and requirements for each client. The Content Writer will report to the Director of Product Development and Medical Legal Services.

Additional responsibilities may include **interacting with physician, risk management, nursing and administrative clients.** The role will also require interaction with medical malpractice attorneys as well as clinician/physician contributors.

## JOB REQUIREMENTS

- BA degree and work experience required
- **Writing** and **research** experience required. **Experience in medical and/or legal writing preferred.** Candidates with strong research and writing backgrounds and/or relevant course work will also be considered.
- ~~Clinical experience preferred~~
- **Computer literacy – Microsoft Suite, especially PowerPoint, word processing, spreadsheets and database management.**
- **Strong written and oral communication abilities, interpersonal, problem-solving, and organizational skills.**
- **Impeccable attention to detail and focus on quality and performance**

- Positive and optimistic demeanor

- US citizen
